09 January 2024

Dear Member,

There are those amongst you who are still waiting to be issued with your Official Club Team Shirt.

I can only apologise and ask you to identify with my frustration in this matter.

To recap – the shirts were ordered on 31<sup>st</sup> August 2023 and paid for upfront as is required.

Our Supplier, iPosports Ltd, order our iconic shirts from China although I believe that they are able to supply non-sublimated shirts within the UK.

When we first designed the shirts and specification we were advised that by choosing sublimation AND environmentally friendly shirts produced from plastics recovered from the Ocean, not only were we ‘saving the planet’ also be providing a shirt which would not lose its badges and printing in the wash.

This has proved to be the case but I am assured by several team players that our shirts are ‘not great’ and ‘uncomfortable’ to play in as they do not ‘disperse’ sweat etc. However, despite constant chasing by emails to the Company and also the Managing Director, we have yet to receive the 18 shirts ordered.

It has been suggested that [a] we change the team shirt specification and design for next season and  
[b] think about an alternative supplier.

This would mean that the shirts would not be as striking because they would not be sublimated and would run the risk of losing badges etc in overenthusiastic washing.

I am attempting to obtain samples of an alternative shirt material, but in the meantime would be very grateful to receive any advice or observations on the question of Club supplied team shirts.

Yours sincerely,

*Graham S. Jackson*

Chairman.  
Shrewsbury Squash & Racketball Club
